Ascentry x Inlog : A strategic partnership to accelerate the digital transformation of medical laboratories

Ascentry, a specialist in middleware solutions, and Inlog (LIS & transfusion), a well-established publisher of LIS solutions, are announcing a strengthened collaboration to deliver a comprehensive and fully integrated offering.

This partnership formalizes a long-standing collaboration between the two companies, which began several years ago through joint projects in healthcare institutions. By formalizing this alliance, both organizations now aim to accelerate deployments, enhance coordination, and provide laboratories with a coherent and high-performing joint solution.

David Kalfon, CEO of Inlog: *«This agreement marks a new milestone, recently demonstrated by the Paris Saint-Joseph Marie-Lannelongue Hospitals, which have selected our two solutions to digitize all their laboratories.»*

Cyril Verhille, CEO of Ascentry: *«Inlog enjoys an excellent reputation not only in France but also in many other countries. This agreement is fully aligned with our alliance and international growth strategy.»*

About Ascentry

Ascentry is a global leader in healthcare data management solutions, enabling clinical laboratories, healthcare facilities, and IVD vendors to operate with clarity, speed, and confidence. The company's solutions are used in more than 5,000 customer sites across over all countries, helping to ensure the right results for every patient, every time. Ascentry's expertise spans clinical laboratory data management, epidemiological monitoring, and the prevention of healthcare-associated infections, delivering scalable, high-performance software that addresses today's most complex challenges.

About Inlog

Founded in 1992, Inlog is one of the leading French software editors in the field of medical IT for clinical laboratories, hospitals, and blood transfusion centers. Inlog is the European leader in transfusion IT and a key player in the Laboratory Information System (LIS) market.
